TO WHOM IT MAY CONCERN

I am writing to express my interest in the Project Manager position with your company. I am also very excited about the possibility of working for a reputable and growing company like yours where I will have the opportunity to work on architectural design and planning in a professional setting. I graduated with a master in Architecture (May 2015). With my master degree in Architecture and my hands-on experience in this field, I am confident that I have those specific qualities that you are looking for in a candidate. Over the past years I have been employed by U.S. Coast Guard Civil Engineer Unit, Thomas and Evelyn Architecture, Kobi Karp Architecture, Leo A Daly, OBMI , Wannemacher Jensen Architects and Zyscovich where I have worked on a variety of residential, commercial, and retail mixed-use projects in the education, and healthcare sectors. My enclosed CV and portfolio clearly shows my knowledge of structural design, material resolution and building economics, as well as my ability to utilize Revit, Auto CAD, Rhino, Maya, 3ds Max, Microsoft Office, Adobe and other graphics communication programs. I am a dynamic and ambitious architect who possesses the design and development flair needed to plan, coordinate and be involved in all phases of an architectural project. Moreover, I have superb communication skills and client liaison ability as well as a strong technical understanding of the Florida Building Code.

I appreciate your consideration of my application and look forward to further discussing this opportunity with you in person. Please feel free to contact me anytime to arrange an interview.

Sincerely,

Kevin Tenor
